

## AWARENESS ONLY: ABC Supplier Site Login Screen Update

This message is for your awareness, and no action is required from you. **We have improved the AT&T Buying Central (ABC) Supplier Site (Oracle Cloud) login process** and hope this change will simplify your experience!

### What is Changing?

Beginning **Monday, November 17<sup>th</sup>**, users will no longer be directed to the 'Sign In Oracle Applications Cloud' page or required to use the 'Company Single Sign-On' button when accessing the [ABC Supplier site](#). Instead, you will be taken directly to the '**AT&T Global Logon**' page to enter your user ID and password. Please note that **the link for the ABC Supplier site will remain the same**.

Thank you,  
**AT&T Buying Central (ABC) Team**
